

Row Captain Report Aug-2020

Saturday Aug. 8, 0149 hrs. I got a text from N Row Captain **Rick Mills** about a large water leak above Ramp 5. After checking it out together we decided that the irrigation pipe had let loose. Moorage Manager was called, water got shut off and pipe repaired.

I also got a call from **Jennifer Taylor** one late night to help track down a burning smell on N-Row. We isolated the home and woke resident up to ask them to keep a watch on area. Later, it developed that BBQ had something burned inside.

I am still handing out keys in person, 1613, 1719, 1683, 1709, 1781 are left to be distributed. If you know these folks, please have them contact me at jmzweerts.jbmi@gmail.com.

Inventory as of Aug. 14. Avoid using as a parts depot for ordinary work. Please feel free to make suggestions on what to add to these boxes.

JBMI Emergency Box Inventory	Ramp 1	Ramp 3	Ramp 5	Ramp 7

35 feet braided line R. Schmidt				Only this box

3 vacancies need to be filled.

Bang an emergency signal on a steel piling to alert nearby residents and Row Captains for immediate assistance for home breakaway, fire, man overboard, boat sinking. Call 911 if police or fire response needed.

Standard River Signal for Emergency only.

Five short bangs = Danger signal-----Repeat until response is made

1859 Senior Row Captain
